ANVER Vacuum Cups

ANVER Vacuum Cups Overview

#1 North American Source for Vacuum Cups & Suction Cups

ANVER Corporation is North America's leading manufacturer of vacuum cups (suction cups), level compensators, suspensions, mountings and sealing rings. Unlike other suppliers, **ANVER is the direct manufacturer**, ensuring consistent quality, competitive pricing and large stock for fast delivery.

More than **1,000+ cup models**: from Flat cups, Single Bellows and Double Bellows to specialized cups for paper and printing, food, high-temperature glass, CD/DVD, eggs and round objects... A wide choice of rubber compounds: NBR, Silicone, EPDM, Polyurethane and Vulkollan®, in colors and durometers matched to each application.

***Note:** ANVER offers **350+ direct replacement P-Style cups** and the **CVM Series** equivalent to PFG, PBG, PJG, PCG, PUGB, with identical dimensions, fully interchangeable, at a lower price. Contact FULLSHARP for advice on the right cup for your lifting or pick-and-place application.

3 Main Types of Vacuum Cups

Flat Vacuum Cups

Flat Suction Cups

Designed for flat or slightly curved surfaces with fast pick and release, ideal for heavy horizontal loads. The cleated-bottom version prevents thin, soft materials from wrinkling.

Single Bellows Cups

Single Bellows Cups

Compensates for uneven surfaces and height differences. Slower response than flat cups and not recommended for vertical lifting; suited to picking lightly curved objects.

Double Bellows Cups

Double Bellows Cups

Handles larger surface and height variations than single bellows. Recommended for **horizontal lifting only**, not vertical lifting, due to the large stroke.

Equivalent Replacement Lines — Lower Cost

P-Series Vacuum Cups

P-Style Suction Cups

350+ replacement cups directly equivalent to P-Style products on the market. Identical dimensions and exact interchangeability. Made from new molds with premium rubber compounds: a better product at a lower price.

✓ Non-pigmented silicone · ✓ Better pricing · ✓ High quality

CVM Style Vacuum Cups

CVM Style Suction Cups

Direct replacements for **PFG, PBG, PJG, PCG, PUGB** cups on imported machines. Fully identical dimensions, hard to tell apart without close inspection. Developed for customers who need to replace cups on foreign-made machines.

✓ Equivalent to PFG/PBG/PJG · ✓ 100% interchangeable · ✓ Lower price than imported parts

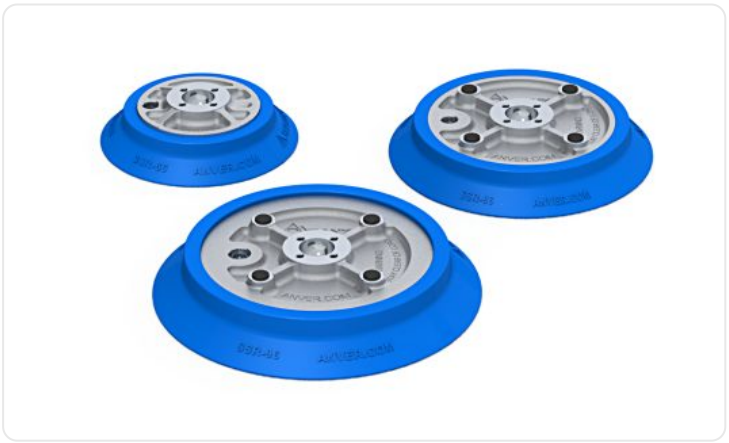

Oval Cups & Round Cups with Replaceable Rubber Seals

Oval Cups

Small Oval Cups

Snap-on fitting; the small OC Series is designed for small cylindrical items such as pens, tubes and bottles. Available in many sizes and materials.

Round Pads Replaceable Seals

Round Pads — Replaceable Seal

VP Series with easy-to-replace slip-on rubber seals that reduce maintenance cost. Compatible with ball swivel suspensions. 30+ years of molding experience.

Round High Flow

High Flow Round Pads

Soft, long lip with deep deflection. Designed for rigid flat sheets: steel plate, wood, composites, curved panels, stone. Can be used singly or several in series.

Rectangular VP

Rectangular & Oval Pads — Slip-On Seal

Soft, long lip with deep deflection for rigid sheets, wood, composites and stone. Versatile design, used singly or in series.

Rectangular High Flow

Rectangular Pads — Replaceable Seal, High Flow

High-flow oval/rectangular version with a soft, long lip and deep deflection. Optimized for wood, composites, curved panels, stone and other materials. Can be used alone or combined in arrays.

VC25 / 35 / 40 / 45

Small Round Pads — Fixed Seal

Thick rubber bonded to a precision-machined aluminum base for long service life. Suited to heavy-duty use in the automotive industry and press feeding.

VC57 / 65 / 75

Medium Round Pads — Fixed Seal

Hub style with rubber bonded to aluminum, machine rod suspension and side vacuum port for a secure, airtight, long-lasting connection. General-purpose use.

VP 9-12

Heavy-Duty Rectangular Pads

Ideal for heavy loads in a compact size when the load area does not allow multiple small pads. Available with replaceable or fixed seals.

Heavy-Duty Bolt-On Pads & Foam Pads for Rough Surfaces

Bolt-on Round

Bolt-On Round Pads — Replaceable Seal

Heavy-duty steel frame with easily replaceable rubber seal. Ideal for handling steel sheet and semi-rigid to rigid plate. Multiple industry-standard mounting options.

Applications: steel sheet, sheet metal, plate

Bolt-on Rectangular

Heavy-Duty Bolt-On Rectangular Pads

Ideal for heavy loads in a compact size when the surface area does not allow multiple small pads. ANVER builds them rugged and safe for heavy loads.

Applications: large panels, thick sheet metal

Round Foam

Round Foam Pads — ANDURASOFT®

Slip-in, self-locking **ANDURASOFT®** foam seal ring. Most effective on rough, uneven surfaces: textured plate, diamond plate, sawn stone, ground concrete.

Applications: ribbed steel, rough stone, concrete

Rectangular Foam

Rectangular Foam Pads — ANDURASOFT®

Rectangular version with the same ANDURASOFT® foam technology. Slip-in, self-locking seal ring, highly effective on rough surfaces, diamond plate, saw-cut stone and concrete.

Applications: rough wood panels, rough stone, OSB

Industry-Specific Suction Cups

Paper Industry

Suction Cups Paper & Printing

For offset presses, bookbinding machines, sheet feeding and thin carton. Anti-marking materials that leave no pigment.

Baking Food

Suction Cups Baking & Food

FDA compliant, for handling baked goods, foil pouches and packaged food. White/clear silicone, easy to clean, no cross-contamination.

High Temp Glass

High-Temperature Glass Cups

Heat resistant for tempered glass production and annealing lehrs. Special silicone keeps its elasticity at high temperatures.

CD DVD

Optical Media Ring Cups

Ring cups for handling CD, DVD, Blu-Ray and optical discs. Edge contact avoids scratching the data surface.

General-Purpose Rubber

NBR (Nitrile) NR (Natural) SBR EPDM

Silicone & PU

Silicone Silicone FDA Polyurethane Vulkollan®

Specialty

Anti-Marking Anti-Static High-Temp ANDURASOFT® Foam

Suspensions & Level Compensators

Replacement Seals

Replacement Seals

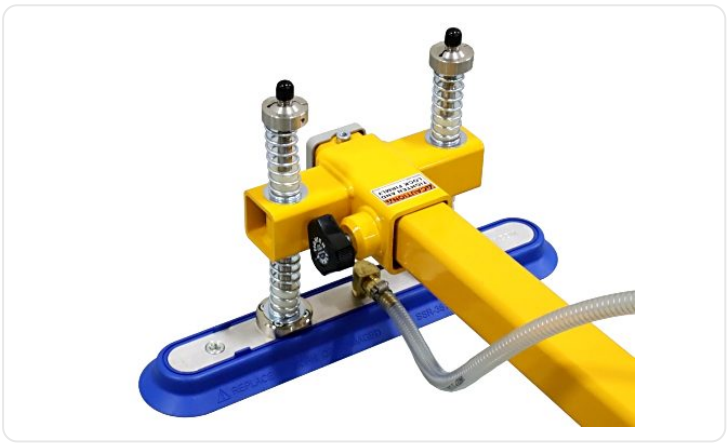

Slip-on replacement rubber seals for the VP Series, for simple, economical maintenance

Slip-On Seals

Slip-On Seals

Slip-on seals for the VP72 Series, replaced without special tools

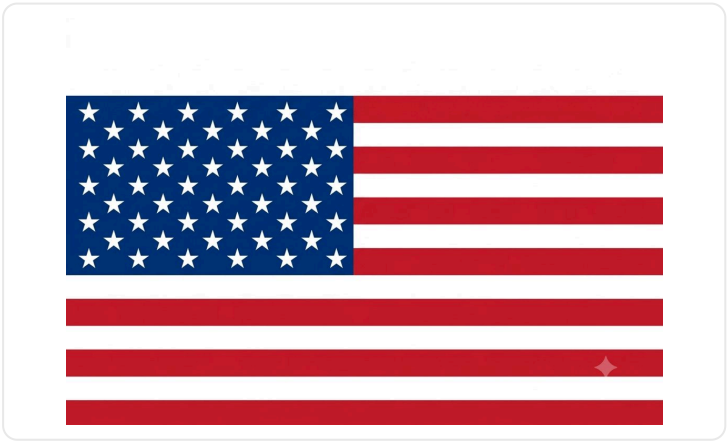

Oval Cup

Oval Cups

Oval suction cups with reusable fittings and non-rotating suspensions for precision applications

Quality Commitment & Manufacturing Advantages

Made in USA

Made in USA

Manufactured in the United States

ISO 9001:2015

ISO 9001:2015
Quality certified

ANVER is **the direct manufacturer**, with no middlemen, ensuring consistent quality, competitive pricing, large stock and fast delivery. **58+ years** of experience manufacturing vacuum cups in the USA with premium rubber compounds and the latest molding technology.

FULL-SHARP AUTOMATIZED VN (FULLSHARP)
Authorized distributor of ANVER vacuum cups in Vietnam
To find the right cup for your application, or to replace cups on imported machines (P-Style / CVM / PFG / PBG...), please contact FULLSHARP for a cross-reference chart, samples and a fast quotation.
