ED Series

The ED Series is designed for high-speed lifting with low weight and flexible speed control. Compact enough to move around easily, the ED Series features advanced hoist technology, easy maintenance and industry-leading quality.

EDIII Series

Single-phase electric hoist, AC 120V or 240V (max)

- Fast, precise lifting and lowering
- Compact design saves headroom
- High efficiency and outstanding durability
- High-performance mechanical brake
- Overload protection
- Lightweight: the 100 kg model weighs only 11.5 kg (standard)
- Optional mini trolley extends the range of applications
- Enclosure ratings: IP54 (hoist body), IP65 (push button), IP44 (control handle)

Specifications

Capacity:	60 kg to 480 kg
Power supply:	Single-phase AC 120V or 240V (max), 50Hz/60Hz
Control voltage:	Direct control as standard, low-voltage control optional
Motor insulation:	Class F
Enclosure:	IP54 (single speed), IP54/65 (two speed), cylinder: IP44

Suspension:	Hook, mini trolley, universal trolley
Operating temperature:	-20°C to 40°C
Operating humidity:	≤85% RH
Operating voltage:	110 ~ 120V or 220 ~ 240V

Note:

For added safety, an upper limit switch and a chain spring are available as options.
