FS-Flash(lite)

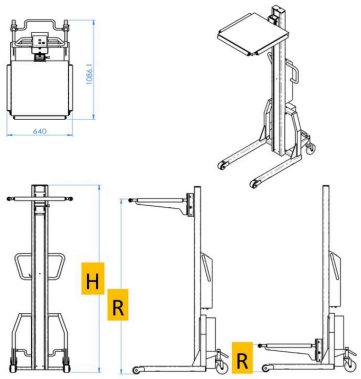

The FS-Flash(lite)-RP cleanroom stainless steel lifter series uses a lightweight aluminum mast or 304 stainless steel, and is suitable for lifting plastic baskets, carton boxes, cloth bags and stainless steel containers. It offers a fast lifting speed of 250mm/s, a maximum load capacity of 120kg and a lifting height of up to 1900mm. The unit can be fitted with a roller table in ABS, aluminum or stainless steel, with options for an ASP control system, remote control, weighing platform and solid wheels. It runs on a fast-charging DC24V20AH battery, works in a wide range of environments, and offers IP41 protection or optional IP66.
