FS-Zac-MRS

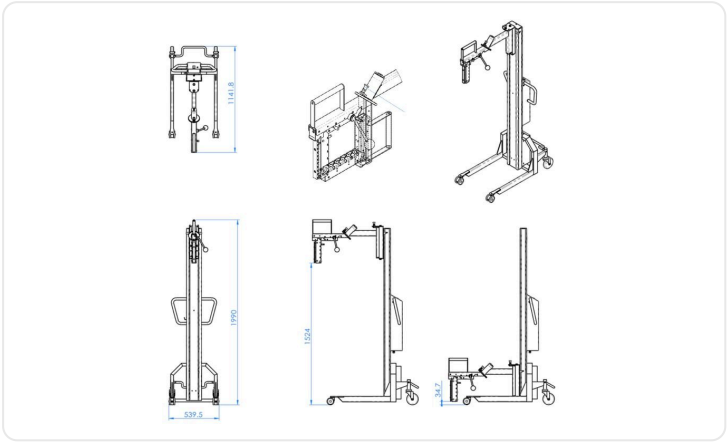

The stainless steel FS-Zac-MRS roll lifter is a compact lifting solution for the packaging, printing and food processing industries. With a 50kg load capacity, the FS-Zac-MRS handles material rolls with a 3” or 6” core and a maximum width of 500mm. It is fitted with a lead-acid or optional lithium battery with fast charging (4 hours or 70 minutes) for continuous, stable operation. The body is made of aluminum and 304 stainless steel for durability, easy cleaning and suitability for clean environments. With its optimized design, the FS-Zac-MRS lifts and lowers at the push of a button at a standard 125mm/s, meeting a wide range of operating needs. Advanced options such as ASP lift position memory are available.
