Lifts All Basic

Lifts All Basic

Lifts All Basic

Basic is the ideal lifter for handling boxes, well suited to distribution centers and warehouses where fast movement and smooth lifting are required.

Use this lifter with a **vacuum gripper** to lift carton boxes, sheet materials or sacks. It works only with materials that are moderately to fully airtight.

You can also use **Basic with a hook** to lift bags, buckets or pallets.

Technical Specifications

- **Max. load** 35/50 kg (77/110 lbs)
- **Lifting height** 1.5 m (4′ 11″)
- **Working pressure** 6–7 bar (90–100 psi)
- **Load rotation** Endless rotation
- **Noise level – carton** 63 dB
- **Noise level – airtight material** 0 dB

How to Use Basic

When **Basic** touches the surface, it grips automatically and is ready to lift. The operator controls **when** and **how fast to lift or lower** using the **up/down triggers**, with speed proportional to trigger pressure. The harder you squeeze, the faster it lifts. With **free load rotation**, placing the load is easy and precise.

Benefits of This Vacuum Lifter

The Lifts All vacuum lifter is an **efficient** and **easy-to-use** solution for lifting and holding a wide range of materials. It suits **flat**, **uneven** or **porous** surfaces when configured for the load. Vacuum grippers can be **custom designed** for different loads and materials.

Safer Lifting

Basic is a reliable lifter. If the required vacuum level is not reached, the unit **will not lift**. If vacuum drops during lifting, the load is **lowered slowly to the ground**, protecting both **people and goods**.

A Wide Range of Vacuum Tools

Depending on the **size and weight of the load**, you can choose from different tools. Lifts All offers a range of **standard hooks** and **vacuum grippers** with 1, 2, 4 or 6 suction cups that are easy to change. If none fits, we will design a **custom gripper** for you.

Quick-Change Suction Tools and Hooks

Basic suction tools and hooks are a set of connectable tools that make **Basic** a versatile lifting device. Depending on the item, its size and weight, we offer **vacuum cups** in various sizes, **I-frames, H-frames, sack lifting frames** and **hooks** for specific tasks. The tools connect easily to the lifter with a **twist-to-click** coupling.

Basic Suction Tools and Hooks

Single Medium 93-20002 Max. load 14/19 kg

Single large carton 93-20003 Max. load 25 kg

Single XL carton 93-20031 Max. load 50 kg

Single XL airtight 93-20005 Max. load 50 kg

Luggage & Sack cup 93-20017 Max. load 50 kg

Sack cup large 93-20016 Max. load 50 kg

Vacuum pad 93-20043 Max. load 30/50 kg

I-frame Small 93-20006 Max. load 12.5/18 kg

I-frame Medium 93-20007 Max. load 25/36 kg

I-frame large carton 93-20009 Max. load 50 kg

Adjustable I-frame 93-20036 Max. load 36 kg

H-frame Small 93-20010 Max. load 25/36 kg

H-frame Medium 93-20011 Max. load 50 kg

Hook for EU-pallets 93-20023 Max. load 30 kg

Basic Hook 93-20022 Max. load 50 kg

Carbine Hook 93-20037 Max. load 40 kg

Safety Hook 93-20035 Max. load 50/100 kg
